Hi Steve,

Please review, there are only a few paragraphs that needed to be changed and require USACE review.

I have highlighted those sections in yellow.

Pages 1-3, 12, 23, 25 and added a USACE NAE memo from 91516 as a reference on page 38.

Please try to turn this around quickly if possible (like Wed?)

Also reminder- you guys have the final rule and comments are due on Friday. The information provided here on site capacity and dredging needs is similar in the rule, so if you do not agree with it, please check the rule as well.

Thanks, Jeannie
